S.B. No. 1707

A BILL TO BE ENTITLED

AN ACT

relating to the regulation of poultry facilities.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 26.301, Water Code, is amended by adding Subdivision (5) to read as follows:

(5) "Liquid waste handling system" means a system in which fresh water or wastewater is used for the transportation and land application of waste.

SECTION 2. Section 26.302, Water Code, is amended by adding Subsections (b-1) and (d) to read as follows:

(b-1) The State Soil and Water Conservation Board may certify a water quality management plan for a poultry facility if the poultry facility:

(1) does not use a liquid waste handling system; and

(2) is required to obtain a permit or other authorization from the commission.

(d) This section does not affect the authority of the commission to investigate or take enforcement action against a point source discharge under Section 26.121.

SECTION 3. ^{Subsection (e)} Section 201.026 ^(e), Agriculture Code, as added by Section 1, Chapter 1189, Acts of the 77th Legislature, Regular Session, 2001, is amended to read as follows:

(e) At the request of the landowner, the state board may develop and certify a water quality management plan for any/12

1 agricultural or silvicultural land in the state. Section
2 26.302(b-1), Water Code, applies to a water quality management plan
3 developed or certified for use by a poultry facility under this
4 section.

5 SECTION 4. This Act takes effect September 1, 2005.

BILL ANALYSIS

Senate Research Center

S.B. 1707
By: Staples
S/C on Agriculture & Coastal Resources
4/6/2005
As Filed

AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Since its inception, the water quality management plan program has been intended to apply to nonpoint source farmsteads and unpermitted animal feeding operations that did not require a water quality permit. Although the Agriculture Code states that the Texas State Soil and Water Conservation Board (board) is authorized to certify a water quality management plan on any Texas land at the request of the landowner, the authority of the agency to provide technical conservation planning assistance to a regulated entity is not explicitly given.

As proposed, S.B. 1707 clarifies the board's authority to provide technical conservation planning assistance to poultry facilities that do not use a liquid waste handling system and are required to obtain water quality permit coverage under the Clean Water Act. These changes do not exempt an entity from obtaining a permit coverage from the Texas Commission on Environmental Quality. The changes only make it clear that the board is authorized to continue to provide assistance to a certain sector of the regulated community, and that a certified water quality management plan should be an option for meeting permit requirements for certain poultry facilities.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

SECTION BY SECTION ANALYSIS

SECTION 1. Amends Section 26.301, Water Code, by adding Subdivision (5), to define "liquid waste handling system."

SECTION 2. Amends Section 26.302, Water Code, by adding Subsections (b-1) and (d), as follows:

(b-1) Authorizes the State Soil and Water Conservation Board (board) to certify a water quality management plan for a poultry facility if the facility does not use a liquid waste handling system and is required to obtain a permit or other authorization from the Texas Commission on Environmental Quality (TCEQ).

(d) Provides that this section does not affect the authority of TCEQ to investigate or take enforcement action against a point source discharge under Section 26.121 (Unauthorized Discharges Prohibited).

SECTION 3. Amends Section 201.026(e), Agriculture Code, as added by Section 1, Chapter 1189, Acts of the 77th Legislature, Regular Session, 2001, to provide that Section 26.302(b-1), Water Code, applies to a water quality management plan developed or certified for use by a poultry facility under this section.

SECTION 4. Effective date: September 1, 2005.

By: Staples S.B. No. 1707
(In the Senate - Filed March 11, 2005; March 30, 2005, read first time and referred to Subcommittee on Agriculture and Coastal Resources; April 7, 2005, reported favorably to Committee on Natural Resources; April 13, 2005, reported favorably from Committee on Natural Resources by the following vote: Yeas 8, Nays 0; April 13, 2005, sent to printer.)

A BILL TO BE ENTITLED
AN ACT

relating to the regulation of poultry facilities.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 26.301, Water Code, is amended by adding Subdivision (5) to read as follows:

(5) "Liquid waste handling system" means a system in which fresh water or wastewater is used for the transportation and land application of waste.

SECTION 2. Section 26.302, Water Code, is amended by adding Subsections (b-1) and (d) to read as follows:

(b-1) The State Soil and Water Conservation Board may certify a water quality management plan for a poultry facility if the poultry facility:

(1) does not use a liquid waste handling system; and
(2) is required to obtain a permit or other authorization from the commission.

(d) This section does not affect the authority of the commission to investigate or take enforcement action against a point source discharge under Section 26.121.

SECTION 3. Subsection (e), Section 201.026, Agriculture Code, as added by Section 1, Chapter 1189, Acts of the 77th Legislature, Regular Session, 2001, is amended to read as follows:

(e) At the request of the landowner, the state board may develop and certify a water quality management plan for any agricultural or silvicultural land in the state. Section 26.302(b-1), Water Code, applies to a water quality management plan developed or certified for use by a poultry facility under this section.

AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Since its inception, the water quality management plan program has been intended to apply to nonpoint source farmsteads and unpermitted animal feeding operations that did not require a water quality permit. Although the Agriculture Code states that the Texas State Soil and Water Conservation Board (board) is authorized to certify a water quality management plan on any Texas land at the request of the landowner, the authority of the agency to provide technical conservation planning assistance to a regulated entity is not explicitly given.

As proposed, S.B. 1707 clarifies the board's authority to provide technical conservation planning assistance to poultry facilities that do not use a liquid waste handling system and are required to obtain water quality permit coverage under the Clean Water Act. These changes do not exempt an entity from obtaining a permit coverage from the Texas Commission on Environmental Quality. The changes only make it clear that the board is authorized to continue to provide assistance to a certain sector of the regulated community, and that a certified water quality management plan should be an option for meeting permit requirements for certain poultry facilities.

RULEMAKING AUTHORITY

This bill does not expressly grant any additional rulemaking authority to a state officer, institution, or agency.

SECTION BYSECTION ANALYSIS

SECTION 1. Amends Section 26.301, Water Code, by adding Subdivision (5), to define "liquid waste handling system."

SECTION 2. Amends Section 26.302, Water Code, by adding Subsections (b-1) and (d), as follows:

(b-1) Authorizes the State Soil and Water Conservation Board (board) to certify a water quality management plan for a poultry facility if the facility does not use a liquid waste handling system and is required to obtain a permit or other authorization from the Texas Commission on Environmental Quality (TCEQ).

(d) Provides that this section does not affect the authority of TCEQ to investigate or take enforcement action against a point source discharge under Section 26.121 (Unauthorized Discharges Prohibited).

SECTION 3. Amends Section 201.026(e), Agriculture Code, as added by Section 1, Chapter 1189, Acts of the 77th Legislature, Regular Session, 2001, to provide that Section 26.302(b-1), Water Code, applies to a water quality management plan developed or certified for use by a poultry facility under this section.

SECTION 4. Effective date: September 1, 2005.

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 79TH LEGISLATIVE REGULAR SESSION

April 6, 2005

TO: Honorable Mike Jackson, Chair, Senate Committee on S/C on Agriculture & Coastal Resources

FROM: John S. O'Brien, Deputy Director, Legislative Budget Board

IN RE: SB1707 by Staples (Relating to the regulation of poultry facilities.), **As Introduced**

No significant fiscal implication to the State is anticipated.

The bill would define the term "liquid poultry waste" as a system in which fresh water or wastewater is used for the transportation and land application of waste. The bill would allow the Soil and Water Conservation Board to certify a water quality management plan for poultry operations that are required to obtain a permit or authorization from the Commission on Environmental Quality and that do not use a liquid waste handling system. No significant increase in workload is expected at either agency.

Local Government Impact

No fiscal implication to units of local government is anticipated.

A BILL TO BE ENTITLED

AN ACT

relating to the regulation of poultry facilities.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 26.301, Water Code, is amended by adding
Subdivision (5) to read as follows:

(5) "Liquid waste handling system" means a system in
which fresh water or wastewater is used for the transportation and
land application of waste.

SECTION 2. Section 26.302, Water Code, is amended by adding
Subsections (b-1) and (d) to read as follows:

(b-1) The State Soil and Water Conservation Board may
certify a water quality management plan for a poultry facility if
the poultry facility:

(1) does not use a liquid waste handling system; and

(2) is required to obtain a permit or other
authorization from the commission.

(d) This section does not affect the authority of the
commission to investigate or take enforcement action against a
point source discharge under Section 26.121.

SECTION 3. Subsection (e), Section 201.026, Agriculture
Code, as added by Section 1, Chapter 1189, Acts of the 77th
Legislature, Regular Session, 2001, is amended to read as follows:

(e) At the request of the landowner, the state board may
develop and certify a water quality management plan for any

1 agricultural or silvicultural land in the state. Section
2 26.302(b-1), Water Code, applies to a water quality management plan
3 developed or certified for use by a poultry facility under this
4 section.

5 SECTION 4. This Act takes effect September 1, 2005.

BILL ANALYSIS

C.S.S.B. 1707
By: Staples
Environmental Regulation
Committee Report (Substituted)

BACKGROUND AND PURPOSE

The Texas Legislature in 2001 required all dry litter poultry producers to obtain a water quality management plan certified by the Texas State Soil and Water Conservation Board (TSSWCB). During this time the US Environmental Protection Agency (EPA) did not require any water quality permits for dry litter facilities because these facilities were considered non-point source facilities. The next year EPA changed the classification of dry litter poultry producers of certain sizes to point source facilities. These facilities will now be governed by the concentrated animal feeding operations (CAFO) regulations which require facilities to have a water permit under the Clean Water Act issued by the Texas Commission on Environmental Quality (TCEQ).

TCEQ has adopted rules dealing with CAFOs and dry litter poultry facilities which will go into effect April 2006. These rules recognize the water quality management plans as a method of meeting the technical requirements for the water quality permit. C.S.S.B. 1707 clarifies that the TSSWCB has the authority to provide technical conservation planning assistance to dry litter facilities who are required to have a water quality permit coverage under the Clean Water Act.

Under current statute, a CAFO is required to obtain a permit from the TCEQ if any part of the CAFO's retention facility will be located within the protection zone of a sole-source surface drinking water supply. These provisions, however, do not consider dry litter poultry operations which have no liquid waste, and thus no potential for discharge within these protected zones.

Dry litter poultry operations currently operate under a water quality management plan which is approved by Texas State Soil and Water Conservation Service. These plans address the location of the dry litter operations and locations of field application sites of this dry litter waste matter.

C.S.S.B. 1707 removes dry litter poultry operations from the TCEQ CAFO permit requirements.

RULEMAKING AUTHORITY

It is the committee's opinion that this bill does not expressly grant any additional rulemaking authority to a state officer, department, agency, or institution.

ANALYSIS

C.S.S.B. 1707 amends the Water Code to allow the State Soil and Water Conservation Board to certify a water quality management plan for a poultry facility that does not use a liquid waste handling system and has obtained a permit or other authorization from the TCEQ. The bill specifies that these provisions do not affect the authority of the TCEQ to investigate or take enforcement action against a point source discharge. The bill amends the Agriculture Code to provide that these provisions apply to a water quality management plan developed or certified for use by a poultry facility under provisions relating to nonpoint source pollution

The bill amends the Water Code to provide that the statute relating to procedures applicable to permits for certain concentrated animal feeding operations do not apply to a poultry operation that does not use a liquid waste handling system.

The bill provides that the section relating to procedures applicable to permits for certain concentrated animal feeding operations do not apply to a poultry operation that does not use a liquid waste handling system.

C.S.S.B. 1707 79(R)

The bill sets forth a definition of liquid waste handling system for provisions relating to procedures applicable to permits for certain concentrated animal feeding operations.

EFFECTIVE DATE

September 1, 2005

COMPARISON OF ORIGINAL TO SUBSTITUTE

The substitute provides that the statute relating to procedures applicable to permits for certain concentrated animal feeding operations does not apply to a poultry operation that does not use a liquid waste handling system.

The substitute sets forth a definition of liquid waste handling system for provisions relating to procedures applicable to permits for certain concentrated animal feeding operations.

Austin, Texas

FISCAL NOTE, 79TH LEGISLATIVE REGULAR SESSION

April 6, 2005

TO: Honorable Mike Jackson, Chair, Senate Committee on S/C on Agriculture & Coastal Resources

FROM: John S. O'Brien, Deputy Director, Legislative Budget Board

IN RE: SB1707 by Staples (Relating to the regulation of poultry facilities.), **As Introduced**

No significant fiscal implication to the State is anticipated.

The bill would define the term "liquid poultry waste" as a system in which fresh water or wastewater is used for the transportation and land application of waste. The bill would allow the Soil and Water Conservation Board to certify a water quality management plan for poultry operations that are required to obtain a permit or authorization from the Commission on Environmental Quality and that do not use a liquid waste handling system. No significant increase in workload is expected at either agency.

Local Government Impact

No fiscal implication to units of local government is anticipated.

Source Agencies: 582 Commission on Environmental Quality, 592 Soil and Water Conservation Board

LBB Staff: JOB, WK, ZS, TL
